EDMONTON REPORT

EDMONTON: If you live within 60 miles of Edmonton or Calgary, chances are you will be able to receive television broadcasts in the not too distant future. But for persons living beyond this range it looks as if it will be at least 10 years before they will have to consider buying a TV set.

This is the opinion of one Edmonton broadcaster, he emphasized that he was only estimating, for there is nothing on which to base an absolutely dependable forecast. Edmonton and Calgary radio interests have placed applications for TV licenses before the CBC board of governors and a hearing is expected next month.

There is slight possibility of TV reception of up to 100 miles, when the first stations are operating in the two centres. But it would require sky-scraping aerials and then the signal probably would be too weak to warrant owning a set—if you have the electrical power with which to operate it.

Citizens of the towns and villages within the 60-mile radius and those on electrically-equipped farms will be the lucky ones to start with—lucky depending on your views on television.

The farther you are from the transmitting station the higher your antenna will have to be. The terrain of the country between you and the transmitter also will have to be considered when the time comes for you to consider buying a set.

What about the many citizens living outside the limited circle around Edmonton and Calgary?

Their prospects of having TV reception lie not in the erection of separate transmitters, but in the establishment of networks of repeater stations. This looks as if it will be costly.

A repeater station will have to be set up about every 50 miles and presumably persons within a 50-mile radius of such a station would have fairly good reception. The signals are sent from the transmitter and picked up and transmitted from repeater station to repeater station.

Considerable interest is being shown in a proposal to establish a crop insurance for the wheat-growing areas of Canada. J. A. McPhee, superintendent of insurance for the provincial government, said last week.

The proposal recently was discussed at a meeting of the Drumheller District Agricultural Society and is being investigated by the crop insurance committee of the organization. Mr. McPhee said he will be seeking further information on the details of the plan and possibly will investigate crop insurance schemes in the U.S.

Apparently such plans are in operation in some parts of the states Montana was mentioned at the Drumheller meeting and Mr. McPhee said there is a scheme in North Dakota which covers crop losses by fire as well as hail, and also against the expense of picking up crops beaten down by hail.

How far the society's plan would go is not clear, although one report indicated it wanted coverage against the loss of wheat crops from any cause. This would cover a lot of territory in catastrophes and acts of God, such as drought, wind damage, pestilence and blights of one kind and another.

At the present time in Alberta crops can be insured only against possible hail damage.

Private insurance companies, now in hail insurance, would require charter and bylaw amendments to set up further crop insurance.

Premiums would be high, at least at the start, for there are no readily available statistics on the frequency of these catastrophes and the amount of crop damage that could be expected. It was suggested that it might be a field where government assistance would be required. Crop loss through drought already comes under the Prairie Farmers' Assistance Act. There would also be the difficulty of placing a fair valuation, or even a minimum, on a crop, due to the continual price fluctuations.

Interest in the next federal election, expected to be called for a date towards the end of summer, is gaining momentum. A total of 40 candidates has been nominated, at least one in each of Alberta's 17 constituencies. Up to the week end the break-down was: Liberals 11; Progressive Conservatives 4; Social Credit 8; CCF 9; Labor Progressive 8.

Local Organizations Co-operating

Plan Full Day's Program For Coronation Holiday

Plans for a Coronation Day program in Vulcan were completed at a meeting held in the Legion Hall on Monday night with the following organizations represented: Town of Vulcan, Ministerial Association, Army Cadets, Elks, Canadian Legion, Reid Hill W.I., Eastern Star, Thigh Hill W.I., Ladies Auxiliary, Red Cross, U. A., Lions Club, I.O.O.F., Boy Scouts, Board of Trade and Royal Purple, with J. Lundy Findlay in the chair and J. Moffitt as secretary.

The program will consist of a church service, at 10:30 a.m. at the Vulcan Armouries on the theme of "Defender of the Faith" followed by a parade of school children, Cadets, Reserve Army, Scouts and Guides, etc., from the Armouries to the Memorial Park, where an address on a patriotic theme will be given. At noon there will be a Community Picnic, with free coffee and soft drinks being served. No novelty races were planned but some organization may yet take charge of that phase.

At 2:30 and 4:00 o'clock there will be free showings of a suitable picture for the children and a baseball game is being arranged for 3:00 p.m. At dusk the Vulcan Scouts will light a huge beacon bonfire as one of a chain of beacons across Canada marking the occasion. The day will be wound up with a dance from 10:00 till 1:00 a.m. in the Armouries with music provided by Frank Little's Orchestra.

No admission will be charged except at the dance and programs will be printed to give the church service and time of events. Any deficiency in costs will be made up by the various organizations. Each child appearing in the parade will receive a flag.

The Ministerial Association agreed to take charge of the morning program, and R. C. R. Munro was chosen as Parade Marshal and to choose his own assistants. The Ladies Auxiliary offered to serve the soft drinks for the children at the picnic and the coffee will be made and dispensed by the Royal Purple assisted by the Reid Hill W.I. and Thigh Hill W.I. Mr. Kumlin, school principal, stated he would attend to having school children clean up the grounds before the picnic started. The Scouts will tend to the distribution of flags to all children in the parade.

The Cadets under H. F. Ulmer will take charge of seating accommodation at the Armouries and seeing that the seats are removed for the dance at night. The Lions Club represented by Charlie Fulton are in charge of baseball arrangements while the dance is also being handled by the Lions Club represented by Lundy Findlay and Arnold Lloyd.

The flag and bunting committee comprised of Carson McKay, Gale Atkinson and Ronnie Marshall have ordered 1000 flags for the school children and canvassed the merchants and placed orders for bunting and pennants to be used for decorating the streets and store fronts. J. Lundy Findlay is taking charge of the advertising, publicity and programs. Bruce White volunteered to have a truck available for moving chairs. The Elks Lodge will look after seating accommodation at the free show in the Theatre.

Church parade for all Boy Scouts, Girl Guides, Brownies and Wolf Cubs will be held on Sunday May 3 when the various groups will attend the United Church for Divine Worship at 11 a.m. The Minister, Rev. J. S. Clarke, will address the young people.

Dedicate New Battalion Colours

Local Reserve Army Men Attend Calgary Ceremony

Fifty men of "A" Company, Calgary Highlanders (Reserve) attended the dedication of the new colours of the famous 10th Battalion, C.E.F., and its perpetuating unit, the Calgary Highlanders, held at Knox United Church in Calgary last Sunday.

Representing the Vulcan company were men from the Milo, Lomond, Champion, Carmangay and Vulcan platoons of the Highlanders, with the group being under command of W.O.2 R. E. Jones.

Parading from Mewata Armouries to the church, the Queen's color and the battalion battle honour color were carried by two junior officers of the regiment, ahead of the pipes and drums of the Highlanders pipe band. The 62 grey-haired veterans of the 1914-18 campaign were led by Maj.-Gen. D. M. Ormond, D.S.O., and the Calgary, Staveland and Vulcan contingents of the Calgary Highlanders were led by their commanding officer, Lt. Col. H. T. R. Gregg.

The service was conducted by Rev. G. Preston McLeod, and was followed by a parade to the city hall, where Mrs. R. L. Boyle, widow of the first commanding officer of the 10th Battalion, placed wreaths on the memorial plaque.

Census Shows Town Population 1,215

A census of the Town of Vulcan, conducted last week by W. D. Allan and H. F. Ulmer, shows the present population of the town to be 1,215.

Population of the town is now the basis on which certain government grants are made, and the obvious growth in the population of Vulcan since the last Dominion census made the taking of a new census necessary. The 1951 Dominion census showed Vulcan's population at 1,053, with the present population of 1,215 being about a 15 percent increase in less than two years.

Women's Society Of World Service

The monthly meeting of the Women's Society of World Service of the E.U.B. church was held at the home of Mrs. A. Kaiser.

Mrs. Roth was in charge of the meeting. Mrs. O. Schneider led in opening prayer and Mrs. Kaiser read the scripture. Mrs. Roth then brought a short message on the theme "Growth". It was stressed how exercise is required in our spiritual life to promote growth even as in the physical. Mrs. Schierman gave an interesting study on the work in Africa.

Mrs. D. Schierman, the new president, took charge of the business meeting. As a project the ladies are contributing articles of food to the Alberta Camp which is held in July.

Plans are also underway to send parcels of clothing to the needy in Korea.

Mrs. C. Budd closed in prayer after which Mrs. Kaiser served a very nice lunch. The next meeting will be held at the home of Mrs. A. Hilz with Mrs. H. Hilz in charge.

Church parade for all Boy Scouts, Girl Guides, Brownies and Wolf Cubs will be held on Sunday May 3 when the various groups will attend the United Church for Divine Worship at 11 a.m. The Minister, Rev. J. S. Clarke, will address the young people.

school children and canvassed the merchants and placed orders for bunting and pennants to be used for decorating the streets and store fronts. J. Lundy Findlay is taking charge of the advertising, publicity and programs. Bruce White volunteered to have a truck available for moving chairs. The Elks Lodge will look after seating accommodation at the free show in the Theatre.

The service was conducted by Rev. G. Preston McLeod, and was followed by a parade to the city hall, where Mrs. R. L. Boyle, widow of the first commanding officer of the 10th Battalion, placed wreaths on the memorial plaque.

Representatives of the United Church Training School at Naramata, B.C. will be visiting the community on Tuesday evening, May 5th, and will conduct a public meeting in the United Church at 8 p.m. This training school educates young people in the work of the church, in the fields of Religious Education, and Lay Leadership. They will have an interesting story to tell of the work of the school. The Principal of the school is Rev. R. McLaren B.A., a former Alberta Minister. The number of students expected is four and they will be under the leadership of Rev. R. Beirato, B.A., B.D. of Barons. The picture shows the four students: Dora Gillrie of Didsbury, Helen McGuckin of Medicine Hat, Rae Morrison of Calgary and Dick Haythorne of Edmonton.

No Relation to Previous Assessment

Town's New Assessment Will Show Some Changes

A new, general assessment of property in the Town of Vulcan was completed last fall under the direction of H. J. Powers of the provincial department of municipal affairs and the following information has been supplied in anticipation of any questions that may be asked in regard to the new assessment figures.

The assessment of improvements was based on 1942 rates, which do not reflect present-day inflated values. Land assessment is based on the population of the town, also taking into due consideration contributing population, type of highways, roads, rail and bus facilities.

Land assessments follow a definite pattern with minor exceptions of residence in business zones and businesses in residential zones.

The new assessment bears no relation whatsoever to the previous assessment, says Mr. Powers. Numerous changes have taken place within the last five years. The greatest of which was the installation of sewer and water and, recently, a propane gas distribution system. The area of choice business locations has not been unduly altered. The choice residential area has been shifted from the downtown area to the south-eastern portion of town. Lots abutting water and sewer carry a heavier assessment.

Complaints of any ratepayers will be dealt with at a court of revision, at which Mr. Powers and the members of the town council will sit.

Teaching—A Job Or a Career

By W. E. Finbow
Department of Education

Everyone likes to feel that he is needed. Everyone likes to feel that his job is worth-while. The difference between putting in time and filling a need is the difference between a job and a career. The need for teachers today is very great; and the rewards of teaching—if you are the right sort of person—are very near and warm and real.

Teaching is a big job. Not everyone can measure up to it. You need to be healthy, both physically and mentally. You should be at least a little brighter than average. You need self-control and lots of it. You should have a wide awake interest in what is going on in the world. You should be enthusiastic, and be able to rouse enthusiasm in others. You need to be able to stick with a problem. Above all, you must have integrity, your students must know that your thinking is honest, and your decisions fair. If you feel that you possess most of these qualities, there is a good future, a very good future, waiting for you in the teaching profession.

Teaching, like every other worthwhile profession, involves a certain amount of grief. You must be able to adjust your behavior to the needs of a group of young people, no two of whom are alike in any mental or emotional characteristics. And you will have to adapt yourself to the very special

Moisture Welcome But Seeding Delayed

District Is Soaked By Steady Three-day Rain

A drizzling, soaking rain has been falling in the Vulcan district and over the greater part of the province the past three days and at the time of writing late Wednesday afternoon no break was in sight and rain was falling steadily.

Although it will make seeding operations late, farmers generally welcomed the moisture which is being readily absorbed by the land. Although, before the rain, it was estimated that sufficient moisture was present in the land to start the crop, subsoil reserves were very low.

Many district roads are impassable and No. 23 highway is in very poor shape. There has been no bus service this week.

Red Cross Fund Over Objective

Latest total reported in the Vulcan and district Canadian Red Cross Society campaign is \$2,529.00, well over the objective of \$2,200.00.

The last reports of canvassers are still to come in and the final figure is expected to be about \$2,700.00.

Services Held For Mrs. Wilbert Bride

Mrs. Elizabeth Lila Bride, wife of Wilbert Bride of Vulcan, died in hospital on April 13 following a lengthy illness. Funeral services were conducted by Rev. J. S. Clarke at the Vulcan United Church on April 16 and burial was made in the Vulcan cemetery.

Born in Nebraska in 1893, Mrs. Bride came to Canada in 1907 and resided with her parents at Elko, B.C. In 1917 she married Wilbert Bride and the couple resided in the Lomond district, moving to the Vulcan district in 1925 and residing here since that time.

Surviving are her husband; three sons, Harold of Vulcan, Kenneth of Iron Springs and Lloyd of Calgary; and one daughter, Eileen of Calgary.

HOW FREQUENTLY SHOULD WE FALLOW?

Summerfallowing half the land each year is quite a common practice throughout the drought area, according to P. J. Janzen of the Experimental Station at Swift Current, Sask. Although this practice may provide some assurance of at least a partial crop, Mr. Janzen says any method which keeps half the land out of production and at the same time exposes it to soil drifting is open to question.

Experiments have been conducted at the Swift Current Station during the past seven years to determine the relative yields from various cropping systems. These included continuous cropping, seeding stubble when the soil was moist to a depth of 18 inches or more, seeding stubble when the soil was moist to a depth of 27 inches or more, and a two-year rotation of crop and fallow. The seven-year average yields per cultivated acre for the various rotations respectively is as follows: wheat 12.2, 12.7, 12.2 and 8.5 bushels per acre; oats 24.4, 24.6, 19.9 and 17.9; and barley 20.5, 19.9, 15.1 and 12.3. (In the case of the fallow crop rotation, yields are based on half the average yield of seven crops).

From these yields, the inclusion of stubble crops in the rotation has increased the total production per cultivated acre considerably above the fallow-crop rotation. Average yields for continuous cropping compare quite favorably with any of the other rotations. However, this method of cropping is subject to occasional crop failures.

Records of crop production at the substations in Southwestern Saskatchewan during the past 15 years show crop failures have only occurred when there was little or no reserve moisture in the soil at seeding time. On the other hand, when there was a good reserve of moisture in stubble land, yields have compared favorably with those on summerfallow. Total grain production per cultivated acre can be considerably increased by seeding stubble land when there is a good reserve of moisture and summerfallowing only when moisture reserves are low at seeding time.

School Openings Are Postponed

Due to the condition of the roads, the official openings of the new County of Vulcan schools at Milo, Champion and Carmangay—scheduled to be held this weekend—have been postponed.

The new dates and times for the opening ceremonies are as follows and the public is invited to attend:

Milo—Thursday, May 21, at 8 p.m.
Champion—Friday, May 22, at 2 p.m.
Carmangay—Friday, May 22, at 8 p.m.

Herman Spanke Dies At Age 72

A pioneer resident of the Brant district, Herman John Spanke of Vulcan passed away very suddenly at his home Monday evening, April 27. He was 72 years of age.

Born in Petersburg, Ill., he came to Canada in 1906 and farmed in the Brant district. He took up a homestead east of Vulcan in 1907 but continued to live at Brant until 1922, when he moved to his farm between Vulcan and Lomond. In 1928 he moved into Vulcan and had resided here since that time. He conducted an insurance business here and for the past number of years had also served as local police magistrate.

Predeceased by his wife in 1947, Mr. Spanke is survived by seven brothers, Henry and Gus of High River, Charles of Mossleigh, Joseph of Hamford, Calif., Paul of Salem, Oregon, Leo of Vulcan and Anthony of Calgary; and two sisters, Catherine of Chicago and Mrs. Chas. Smith of Black Diamond.

Funeral rites were observed at St. Andrew's Catholic Church, Vulcan, Thursday morning, April 30, and interment was made in the Vulcan cemetery.

Abram Schenk Dies Suddenly

A resident of Vulcan since 1920, Abram Schenk died suddenly at his home in Vulcan on Tuesday, April 28.

Born in Dufferin County, Ont., in 1881 he came west in 1920 and had lived in Vulcan since that time. Besides his wife he is survived by three daughters, Mrs. W. Roberts of Fort Sault, B.C., Mrs. C. Daltrophe of Melzer, Oregon, and Mrs. John Locken of Lacombe, one step-daughter, Mrs. Ivo Love of Vulcan, and one step-son, Bernard Brickelbank of White Rock, B.C.

Services were at St. Aldhelm's Church and interment was made in the Vulcan cemetery.

Receive Donations Scholarship Fund

The regular meeting of the Home and School Association was held April 21 at the school. The president, Mrs. Mavis Roebuck, will be the delegate to the Annual Convention of Home and School Associations, which will be held in Edmonton in May.

The secretary reported on the scholarship fund. Forty-five dollars has been received in donations to this fund. Those organizations which have contributed to the scholarship fund are: Red Cross F.W.U.A., Samaritan Lodge, No. 91, I.O.D.E., Vulcan Lions Club, Ladies' Sunshine Club, Reid Hill W.I., Elks Lodge No. 121, Ladies' Auxiliary B.E.S.L., Clover Leaf Rebekah Lodge No. 37, The Vulcan Home and School Association thanks these organizations for their contributions.

As various organizations are contributing to the scholarship fund, the name of the scholarship has been changed from the Vulcan Home and School Association Scholarship to the Vulcan Community Scholarship.

The resolutions which are to be presented at the Annual Convention were read and discussed. Lunch was served by Mrs. Nelsie Robertson and her committee.

Building Activity

That Vulcan is in for a real residential construction boom this spring is indicated by the news that deposits have already been received from 13 people for C.M.H.C. houses to be built by Paramount Construction of Lethbridge and that at least two or three custom-built houses will be constructed on the lots adjoining the Memorial Park.

It is gratifying to note that the town council prevailed upon Paramount Construction to take the eleven lots in Block 16 and the five lots in Block "R" for their housing plan. These lots are well located near the public school and are already serviced by water and sewer mains. Far better, we think, to fill up these two partially vacant blocks, than to open up a completely new development on some part of the golf course, with the attendant expense of servicing it with sewer and water. Four different sizes and types of houses are available under the housing plan, so there is not much danger of having a block of "look-alike" houses.

The contract for the new high school was let last weekend to Oland Construction of Lethbridge and construction will likely get underway almost immediately.

Coyote Bounty

Replacing the bounty on coyotes in this province would be another effective, economical and efficient manner of reducing the frequency of rabies. It would be a move to protect the health of the people working in fields and forests and it would be another sound protective move for the rich cattle herds now in danger in the northern section of the province.

The spread of rabies throughout the winter months has been southward into country where the increase in the coyote population has been rampant since the removal of the bounty a few years ago. The greater the number of coyotes the more chance of infecting dogs and then humans with the dreaded disease.

At present the government is fighting the outbreak of rabies in the northland with squads of experts; vaccination of pet dogs and study. A substantial bounty on coyotes would reduce the number of carriers and would provide many infected carcasses for study and experiment.

One Third in Taxes

In 1938, all tax collectors—federal, provincial and municipal—took just under 20% of the national income. Last year, they took 33%, which places Canadians among the most highly taxed people in the world.

Sales and excise taxes are hidden in the prices of the things they buy.

Finally, there are corporation taxes. In theory, these are paid by the "wealthy corporations," but in fact they are passed along to the customer—as they must be—in the form of higher prices.

Because of all this, few Canadians understand the extent to which the fruits of their labor are taken from them. Told that taxes on all levels last year took close to \$430 per capita, or \$1700 (the price of a new car) per household, they think that "somebody else" must be paying them. But that is not the case. If we have a small upper-income group paying much more than this, we also have a sizeable lower-income group paying much less. Balancing these two groups against each other, we find that it is the average Canadian, earning between \$2,000 and \$5,000 a year, who carries the tax load. He works one hour in every three for governments. How much heavier can the burden get?

—Toronto Globe and Mail.

REPORT FROM EDMONTON

EDMONTON: Alberta's towns and villages are becoming better places to live in, for many reasons. One of the major reasons is the outstanding number of municipalities installing waterworks and sewage systems.

Look at the figures applied by W. A. Dexter, provincial director of the sanitary engineering division of the department of health. When the last World War ended there were 38 Alberta communities with waterworks and sewage systems. At the end of 1952, there were 55 cities, towns and villages in which these facilities were provided. Strike off the cities of Cal-

gary, Edmonton, Medicine Hat and Lethbridge, which have had these systems for some time, and you can see that the increase since the end of the war is composed entirely of the province's smaller centres. Truly, the day of the outdoor privy rapidly is reaching an end. The number of installations soon will top the 100 mark, for 22 communities are planning the construction of water and sewer systems during 1953 and 1954.

Said Mr. Dexter: "It is apparent that construction of new systems will continue at a high rate for at least two years. It is expected, however, that following

this period there will be a slowing down of construction, as the majority of communities who can economically install them will have done so."

These are the communities which will grow the fastest in population and wealth, because it stands to reason that people would rather settle where these amenities are available. Newcomers will take up residence there and fewer persons will move away.

Officials of the division pointed out one example of how these facilities draw population. A farmer, wishing to retire in his own district, will choose the nearest town where sewer and water facilities are piped right into his house.

It is not only large towns and villages that are installing these systems. There are some with only 300 residents where indoor plumbing is provided.

At the same time, some larger centres find it economically unsound because of a low assessment rate, poor layout of the town, or the unavailability of a suitable water supply.

That so many are finding it possible to finance these projects is due to a large extent to the provincial government's Self Liquidating Projects Act, under which money can be borrowed at a two-percent interest rate, repayable in 20 years. But of course, the major reason lies in the citizens' desire for a better community and their willingness to bear the cost through taxes.

It all means that we probably can look for the use of these centres by at least small industries and businesses in the general industrialization of the province. Away from the higher taxes in and around the big cities, these industries still would find the necessary water, sewer and electric power facilities they need to carry on business and for their employees.

Towns preparing to install water and sewer must first obtain the approval of the provincial board of health and then obtain authority from the board of public utility commissioners to borrow the money. A staff of engineers is maintained to assist in planning sanitary systems.

The fact that these projects come under the health department means, of course, that they are believed necessary in any drive for a healthy community.

SAUNDERS WHEAT FOR SALE. Cleaned. \$1.90 per bushel. William Munro, Phone 337, Vulcan. 37-3c

The Plow that Makes
the SOIL DRINK DEEP

THE ANSWER TO SOIL CONSERVATION BY PREVENTING WIND AND WATER EROSION

The JEOFFROY CHISEL PLOW is engineered for two specific jobs:

- A. Increased acres per hour reducing cost of plowing.
 - B. Increased profits by permitting greater soil productivity.
1. The JEOFFROY breaks through the hard pan to make the sub-soil a reservoir for moisture.
 2. The JEOFFROY returns organic matter to fertilize lower soils increasing yields.
 3. The JEOFFROY mixes stubble and mulch to form a soil binder reducing erosion.
 4. The JEOFFROY is a dual purpose implement. It plows or it cultivates.

OUTSTANDING CONSTRUCTION FEATURES:

The new improved Jeffroy Chisel Plow works satisfactorily in stoniest land or heaviest soils.

- The 22" shank gives greater clearance for trash plowing.
- Double coil springs on release trips eliminates breaking or bending.
- All welded frame gives greater strength.
- Log-type clamps on release directs pressure into beams, eliminates bending of frame channels.
- Removal of any shank or clamp is accomplished without dismantling complete frame.

Phone or call us for details. A demonstration will gladly be arranged.

A. PEDERSON, Secretary J. HUNTER, President
VULCAN SENIOR BASEBALL CLUB

Living from paycheck to paycheck?

Most of us are these days. Then what happens when a sudden money emergency upsets the family budget?

Unfortunately, many people do not know that they can borrow money under the protection of the Canadian Small Loan Law. This law safeguards any man or woman who needs to borrow to meet a money emergency.

Organizations like Household Finance wholeheartedly support the Small Loans Act. It protects you from unfair lending practices, and enables us to give you the kind of quick, constructive money help you want.

Get more out of your paycheck with our free booklet *Money Management, Your Budget*. W. Household Finance, Consumer Education Department, 80 Richmond St. W. Toronto, Ontario.

How many ways do they serve you?

Guess again!

All of these people serve you in useful ways through their jobs. But, like people in all walks of life, they may also be helping you in certain important unseen ways.

Take your postman, for instance. He may have helped to build your home through his ownership of life insurance. It's possible — because the money of thousands of life insurance policyholders is invested for them in building homes throughout the nation.

In the same way your milkman, lawyer or nurse may have helped build new highways, waterworks, schools, power plants or other essential public works in your community.

And — who knows — perhaps your job too was created by these life insurance policyholders' dollars, invested to develop new businesses and industries.

So anyone who owns life insurance — including probably you — does more than provide financial security for his family. He also serves his fellow-citizens in all these useful ways!

District News

BERRYWATER

Sunday guests at the Lorne Healy home were Mr. and Mrs. Gordon Taylor and family of Pincher Creek, who also visited with their aunt, Mrs. Frieda McRoberts in Vulcan.

Lee Blackwell of Calgary spent the weekend at the Healey home. Mrs. Florence Barby of Calgary spent a few days at the home of her son-in-law and daughter, Mr. and Mrs. Roy McIntyre recently.

Sunday guests at the Roy McIntyre home were Mr. and Mrs. E. MacDonell, Mrs. Del Thomas and Allan.

Miss Mary McChyne of Hoadley, Alta. is employed for the summer at the Bill Sharp home.

Mrs. Bob Gerding attended the graduation banquet and the Union of Nurses' meeting at the General hospital last week.

Mr. and Mrs. N. K. Budd and family accompanied by Howard Jurney visited at Calgary and Turner Valley on Sunday.

Sunday guests at the Stan Wickstrom home were Mr. and Mrs. Pete Lundgren, Mr. and Mrs. Bud Freeman and daughter, all of Calgary, Mr. and Mrs. R. Lundgren and family of the district.

Many people of the district motored to Calgary Wednesday last to attend funeral rites for the late B. J. Mensinger. The sympathy of the district is extended to all members of the Mensinger family in their bereavement.

The card party, sponsored by the Berrywater FWUA will be held Saturday evening at the Community Centre. Everybody welcome.

The regular monthly meetings of Berrywater FUA and WA locals were held at the H. C. Douglass home on the evening of April 24, two days later than scheduled, due to the funeral of the late B. J. Mensinger, a former resident of the Berrywater district, being held on the regular date. The FWUA Clothing Drive for Korea is still being held open, with hopes for further donations. A special plea from the Unitarian Services for clothing for children is being stressed in this Drive.

A card party will be sponsored by the local and will take place at the Berrywater Centre at the first opportunity before spring work commences. The card party is to promote the selling of Stamped Queen votes for the Junior FUA candidate. The purchase of a Queen ticket will pay for cards and lunch.

Mrs. Jack Smith who took in the FUA Adult Leadership Course, held at Olds, gave a splendid report on the Course, giving much valuable information on the handling of meetings—what to do about the member who does not take part in discussions, how to arrange a Buzz Session, which always brings out the members' ideas on topics being discussed. Mrs. Smith will give a further talk on this course at the east Division, District 12, FWUA conference to be held the latter part of May. The next meeting will be held one week early owing to the conference coming on or about the regular date.

Mr. and Mrs. Wilson Oldfield received the sad news of the death of their sister-in-law, Mrs. Herb Campbell of Oakville, Ont., who passed away April 24, after an illness of two weeks. Mrs. Campbell week, Mrs. Lahd's sister has just a bride in 1912 and resided here for a year, later moving to the Arrowwood district. W. D. Campbell of Calgary left Saturday to attend funeral services on Monday. Our deepest sympathy is extended to all relatives in the district.

RED CROSS

Vulcan Canucks Jr. FUA had a weiner roast at Arrowwood last Sunday. About 24 attended and was enjoyed by all.

Mr. and Mrs. George Gladhill of Calgary spent the weekend at the home of Mrs. Gladhill's father, Miller White.

Mr. and Mrs. R. McKinnon of Calgary were visitors in the district last week.

Melbourne Dabham of Calgary visited at his home in the district over the weekend.

Mr. and Mrs. Bert Metheral were Calgary visitors on Thursday. A few cases of mumps have broken out here. Those who have it are Bob Pascoe and son Errol.

We send our sympathy to Mrs. Blanche Coe on the death of her sister, Mary Casoon, recently at Cardston.

Clare Dunham and Ronnie were Calgary visitors on Tuesday.

Mr. and Mrs. Howard Bredin from Olds were visitors at the Ed Kehr home.

Mrs. Donald Woodman attended the funeral of her cousin, Walter Davidson at B's & Diamond last Thursday.

Alvie and Weezy Fulton were visitors at Barn's on Monday.

Mr. and Mrs. George Fodd spent the weekend at Trochu at the home of her father.

Visitors to Blackie on Sunday at the home of J. E. Stier were Mr. and Mrs. Alva Love and Mr. and Mrs. Howard Barrell.

Ivan Stager spent the day in Turner Valley on Sunday.

Doctors, lawyers, Merchants, too, We have gifts Designed for you!

BABY CONTEST

STUMPF: a boy, 8 lbs. 8 oz., born April 25.

Parents: Mr. and Mrs. Kenneth Stumpf, Milo.

The aircraft carrier HMCS Mag. ing cruises have taken her to the the Mediterranean. nificant has travelled far since her 'sub-Arctic and the Caribbean, to The Canadian gold mining in-commissioning in April 1948. Train Europe several times and twice to dusty employs 22,000 persons.

THE PURCHASING POWER OF A BUSHEL OF WHEAT

IN 1939 ONE BUS. OF WHEAT PURCHASED 6 1/2 K.w.Hrs. of ELECTRIC SERVICE

IN 1952 ONE BUSHEL OF WHEAT PURCHASED 50 K.w.Hrs. of ELECTRIC SERVICE

Regardless what the business or profession of a person in Alberta may be, all are vitally concerned with the purchasing power of a bushel of wheat. While we do not wish to belittle our natural resources, the economy of Alberta is dependent upon Agriculture. This is something we should never forget. We, therefore, thought it might be of interest to our customers to see a comparative table of the purchasing power of a bushel of wheat today, as compared with 1939, when used to purchase electric service by Farm and Domestic customers. Here is the comparison:

YEAR	Average Elevator Price Per Bushel Received by Alberta Farmers.	Average Amount Paid Per Kilowatt Hour.	Number of Kilowatt Hours a Bushel of Wheat Would Purchase.
1939	\$0.52	8c	6 1/2 K.w.Hrs.
*1952	\$1.51	3c	50 K.w.Hrs.

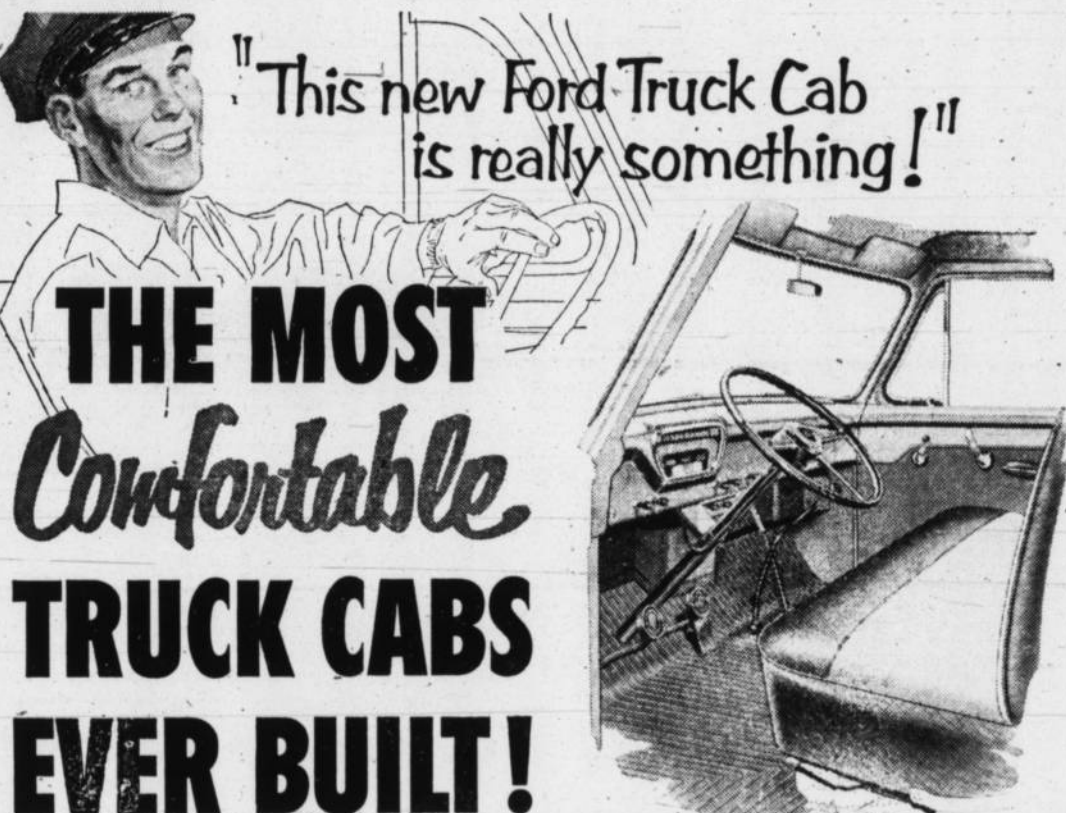

In other words a bushel of wheat in 1952 would purchase almost eight times the amount of electricity a bushel of wheat would have purchased in 1939 for Farm and Domestic customers on Calgary Power system.

ELECTRICITY TODAY IS YOUR BIGGEST BARGAIN.

* Last figures available up to July 31, 1952.

See map of Farm Electrification on page 5

CALGARY POWER LTD.

Now... Ford Truck Engineering Introduces New Driverized Cabs

Here's the newest, most advanced idea in truck design... Driverized Cabs—planned with the driver in mind... designed to reduce fatigue, strain and discomfort... built to promote greater driving ease and higher efficiency. Check over the all-new driving features... see for yourself how Driverized Design makes Ford Economy Trucks the most comfortable, most efficient trucks on the road—the best trucks to drive from the driver's point of view!

NEW VISIBILITY ALL AROUND

New one-piece curved windshield with an increase of more than 50% in glass area gives wide-angle visibility for safer driving. Full-width rear window—over 4 feet wide—and bigger side windows give an increase of 19% in all-round visibility.

PLUS THESE NEW FEATURES OF DRIVERIZED CAB DESIGN

NEW COMFORT SEAT

Finest truck seat ever built—over a full 5 feet wide with non-sag springs—provides roomy comfort for three men. New built-in shock absorbers smooth out roughest bumps. Seat adjusts forward and back—seat-back angle also adjustable.

NEW CAB POSITION

New forward-positioning of engine and cab over the longer, softer, more flexible front springs gives greatly improved driver comfort.

- Larger side windows with sills at arm-rest height!
- Wider doors open right out for easier entrance!
- New insulation seals against engine noise, heat and fumes!
- New robe-type door locks... quieter, safer, more durable!
- New fully weather-sealed construction... dust-tight, flame-tight, water-tight!
- New curved instrument panel with easy-to-read "cockpit" cluster!
- New heating and ventilating system for added all-weather comfort!
- New push-button door handles... easy to operate, more dependable!

Completely NEW for '53

FORD TRUCKS
economy

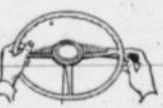

Carry more and carry it farther... FOR EVERY TRUCKING DOLLAR

NEW STEERING EASE
Shorter wheelbases and wider front tracks make all '53 Ford Trucks easier to steer than ever before... shorter turning radius... more maneuverability... greater front-end stability.

FOR SMOOTH HANDLING
Famous Ford V-8 engines deliver plenty of lively power for tough hauls... give smooth, dependable performance mile after mile.

EFFORTLESS SYNCHRO-SILENT SHIFTING—Synchro-Silent Shifting on all models means much less effort for the driver, smoother operation in traffic. Automatic Transmission* and Overdrive* available in all F-100 Series. (* at extra cost).

Champion

Mrs. L. Latiff returned to her home on Wednesday of last week, after spending some time in Calgary, where she was receiving medical treatment.

Mr. and Mrs. Gerald Matlock have returned to their farm home after spending the winter months in Glendale, Calif.

Mr. and Mrs. Harvey Jopling left last week for Victoria where they will attend the graduation exercises at Royal Roads College. Bill Jopling, who will be taking part in these exercises, will accompany them home, and spend four days here before leaving for Kingston, Ont.

Mr. and Mrs. A. E. Howerton, accompanied by Mrs. Jim Allen and Mr. and Mrs. Gordon Stewart were Calgary visitors last Wednesday.

Mr. and Mrs. Oscar Sletto, and Mrs. Jim Anderson have spent the past several weeks in Calgary, due to illness of Bob Sletto, who is a patient in the General Hospital. Mr. Sletto returned to Champion Saturday and reported Bob is much improved.

Miss Gloria Fraser is spending a few days at her home before returning to Calgary, where she will be employed during the summer months.

Mr. and Mrs. Richard Phelps of Cleveland, Ohio, are visiting at the home of Mrs. Phelps' mother, Mrs. L. Latiff. Mr. Phelps is returning to the U.S.A. shortly, while Mrs. Phelps plans to remain with her mother for some time.

Mr. and Mrs. Charlie Leback of Calgary and family were weekend visitors in the town and district.

Mrs. Viola Rhodes has returned from Coleman where she has spent the past two weeks with her mother, Mrs. Root, who has been quite ill.

J. Pharis of Calgary is a patient in a Calgary Hospital.

Mr. and Mrs. Baaken left last week to take up residence in Claresholm.

Dave Elliott has returned home after spending some time in the Carmangay Hospital.

Mrs. J. N. Castator, who has spent the winter months in Calgary, at the home of her son-in-law and daughter, Mr. and Mrs. H. Howerton, has returned to her home in town.

The Knox United Church, Calgary, was the scene of a very impressive service Sunday, April 26, when Mr. A. Marshall Neal, M.M. President of the Tenth Battalion Association presented the Queen's Flag with the Regimental Battle Honors Flag of the Tenth Battalion to the Church for safe keeping. A number of men and N.C.O.'s from Champion's No. 3 Platoon, A Company, Calgary Highlanders (R) took part in the ceremony. The Calgary Highlanders perpetuate the Tenth Battalion. The Tenth suffered heavy casualties in the Battle of St. Julian, April 22nd and 23rd, 1915 when successfully withstanding the first gas attack of the war.

Mrs. F. Little was hostess at a Tupper Ware Tea, held in her home last Wednesday, April 22, when 17 ladies enjoyed a very pleasant afternoon. Mrs. A. Barrie of Calgary gave a very interesting talk on the merits and uses of this product. Mrs. Lawrence and Mrs. Wrenn of Okotoks accompanied Mrs. Barrie to Champion.

Mr. and Mrs. R. Segland attended the funeral of Mr. Hegland's uncle, Mr. Jacobson in Enchant, Sunday, April 26.

Mr. and Mrs. Frank Little and family were Sunday guests at the Richard Bach home.

Art Hopkins and Duane Chamberlin spent Sunday in Gleichen at the Eventide Home, visiting with Charlie Boner, Howard Smith and Ed Dalson.

The Lions' Club of Champion have purchased a Ferris Wheel, which is to be set up at the ball park.

Village of Champion NOTICE OF INTENTION

The Council of the Village of Champion hereby notifies the rate payers of the said Village of its intention to make application under the Self-Liquidating Projects Act for a further loan of \$10,000. This money to be used to pay all outstanding bills in relation to the water project.

And further take notice that unless petitions against this application are received in less than two weeks from this date such application will be made.

Dated this 28th day of April, 1953.

Where does the money go?

At times most of us have looked at purse, wallet or bank-book, and wondered: "Where does the money go?"

Each year we at Imperial add up the company's bills to see what happened to the money we received in the previous 12 months for the gasoline, fuel oil and other products we sell. Here's where each dollar of Imperial's 1952 income went:

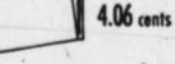

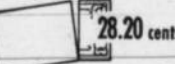

CRUDE OIL and other raw materials we bought, plus freight, took more than half of each dollar.

OPERATING expenses took more than 28 cents. This was the cost of searching for and producing crude oil, and of manufacturing and marketing the hundreds of products we supplied for thousands of uses. Throughout the year high quality products were made available where and when you needed them.

TAXES to provincial and federal governments took 10 cents. And this did not include gasoline tax, which—depending on where you live—took from 24 to 36 cents out of every dollar you spent for standard grade gasoline.

DIVIDENDS paid to shareholders for use of plants and equipment amounted to 4.06 cents.

TO REPLACE worn out equipment and to make sure that we can supply your needs in the future 3.42 cents was put back into the business.

SERVE CANADA

Soldiers like those of the airborne infantry are helping to guard Canada, ready to drop into action wherever danger threatens. The young man who joins the Army and has completed his Infantry training may then volunteer to start training for the proud wings of Canada's "Soldiers of the Sky."

AND YOURSELF

How does a man choose a job? He examines the pay; the working conditions; the opportunities for advancement; the financial security. From every one of these aspects an Army career is excellent. And more—no monotony of being stuck for years in one place; pension plans after 20 years service; medical and dental care whenever needed—without regard for cost or time. Opportunities for training and advancement in the Army today are truly outstanding.

IN THE ARMY

Soldiering is a man's life! There are challenges and dangers. But wherever you go, in the Army, you know you can rely on your comrades, trained fighting men who share with you the action of military life. If you think an Army career is for you, enquire about the opportunities for service with the Infantry—the most important men in the Canadian Army.

You are eligible to join the Army if you are 17 to 40 years of age and able to meet Army test requirements. Applicants should bring birth certificates or other proof of age when reporting for interview.

For full information apply right away to:

No. 10 Personnel Depot, Currie Barracks, Calgary, Alta.

The Army Information Centre, 10042 101st Street, Edmonton, Alta.

BRANT

Mr. and Mrs. Henry Bateman entertained several friends at cards Monday evening.

Members of the Catholic Women's League met at the home of Mrs. Paton of Ensign on April 16. One new member added to the roll made 10 members present. In the absence of Mrs. Rhodes, Mrs. A. Gingras acted as Secretary. Mrs. Emmelking reported on plans made by the Catechism teachers. Mrs. Paton gave out an invitation from the Ensign ladies to attend a showing of films on cancer at a future date. The ladies expressed their eagerness to attend. It was voted to give \$3 to the Cancer Drive and \$5 to the Red Cross. It was decided to stress the spiritual side of their work and to further this plan. Mrs. L. Shaw gave an interesting reading on "Our Lady of Good Council." Mrs. Paton served a delicious lunch at the end of the meeting and Mrs. Inyk won the hostess prize.

The Parents' and Teachers' Association will have their next meeting on Wednesday, May 6 at 8 p.m. Mr. Panabaker of Calgary will be the guest speaker.

Guests at the home of Mr. and Mrs. John Rhodes during the past week were the latter's sister, Mrs. Reynolds, her niece, Mrs. Osborne and son Richard who are enroute to their homes in Kerobert, Sask.

Mr. and Mrs. Oscar along with 17 other members from the High River Club attended the Square Dance Jamboree in Lethbridge on Thursday.

Mrs. Jim Wells won the door prize, a table lamp, at the High Schools' Sadie Hawkins' dance on Friday night.

Those home for the weekend were Marjorie Hamilton, Jean

McDonald and Clifford Anderson.

Mrs. Don Christie and baby daughter is visiting with her mother and sisters.

The members of the Ladies' Aid will meet at the home of Mrs. D. Forsythe on Thursday, April 30. There will be a church service in the Brant United Church, Sunday, May 2.

Mr. and Mrs. J. Wilkinson and family arrived in Brant. Mr. Wilkinson is the new owner of the Dixon Garage.

KIRKCALDY

Sunday visitors at the home of Mr. and Mrs. Joe Main were Mrs. Albert Brooks and family of Fort Macleod and Mrs. Mercer of Didsbury.

Mr. and Mrs. D. E. Lilly of Calgary visited relatives in the district over the weekend. On Sunday they were dinner guests at the home of Mr. and Mrs. Ivan Haga.

Lloyd Newsome of Rimbey, Alta. visited for a few days last week at the home of his brother-in-law and sister, Mr. and Mrs. Gordon Urquhart, and at the home of his nephew, Leonard Newsome.

Mr. and Mrs. Percy Clark moved into their new home in Vulcan on Saturday. They have farmed for 32 years on their farm southwest of Vulcan. Mr. and Mrs. Lloyd Jones and family of Red Deer will take up residence on the Clark farm this week.

Mrs. Gordon Urquhart and Marlene were Lethbridge visitors recently. Marlene is recovering from treatment on her eye in that city.

Mr. and Mrs. Carnegie were Calgary visitors on Sunday.

Kirkcaldy Women's Institute Mrs. Gordon Urquhart was host-

ess to the Kirkcaldy Women's Institute on Thursday with 10 members and one visitor present. The roll call was in the form of a discussion on the analysis of our creed.

It was decided to donate \$5 to the Vulcan Home and School Association for the scholarship fund.

All members were urged to attend the public meeting for the Public Library in the near future.

Miss Marlene Urquhart was appointed to attend the Farm Young People's Week in Edmonton in June if her name was drawn. A sum of \$10.55 was realized from the Whist Drive recently held.

Mrs. Williams gave an interesting and well-informed paper on Agriculture, her topic being Agriculture, Past and present and Future. A short quiz on the different phases of Agriculture followed.

Mrs. Munro won the tea draw. A delicious lunch was served by the hostess, Mrs. Urquhart.

EASTWAY

Will Campbell of Calgary was a district visitor last week.

Mr. and Mrs. F. Wyatt were Calgary visitors on Monday.

Mr. and Mrs. Gordon Layercraft were Calgary visitors last week. Ethel Grondin and Joan Layercraft were Calgary visitors last week.

Mr. and Mrs. Mel Burgess were Calgary visitors with Mr. and Mrs. William Crombey and family.

Three of the local members of the Calgary Highlanders were with the group of 50 from "A" Company that attended the church parade in Calgary on Sunday.

Mr. and Mrs. Bob Hill were Calgary visitors Thursday. While there they visited Duane, who is able to be on crutches now.

Clarence and Bill Sutor were visitors at the Joe Sutor home recently and accompanied them to Queenstown to visit friends.

Canada's population should advance beyond the 15,000,000 mark this year.

Clayton's Pure Seed Farm

G. E. CLAYTON, Owner

VULCAN, Alta.

VICTORY OATS: Crop Certificate No. 99848, Gov't. Germ. Test No. 7299. The old reliable, heavy-yielding plump white oat that is absolutely free of wild oats. Cleaned—bulk truck lots—**90¢** per bushel.

NEWAL BARLEY: CRC No. 99846, Gov't. Germ. Test No. 721619-94%. This is a six-rowed, smooth awn, very heavy yielding feed type that has good straw length. Last year's crop yielded 70 bus. per acre. Cleaned—bulk truck lots—**1.10** bus.

DAKOTA FLAX: CRC No. 99847, Gov't. Germ. Test No. 722294-53%. An early, high-yielding type, resistant to wilt and rust. This is a real producer—a crop free of quota restrictions. Cleaned and sacked, \$5.60 per bushel. Cleaned—bulk truck lots, Per bushel—**5.00**.

Carmanagay

Mrs. E. McFarland has been in Calgary during the last week.
Mr. and Mrs. Ken Wright were visitors at the home of Mr. and Mrs. Floyd Boner on Sunday.
Mr. and Mrs. B. Butterwick of Chin were visitors in town on Sunday.
Audrey Burns returned home from Calgary for a weeks holiday after completing first year of normal. Audrey will take a teaching position in Champion for the months of May and June.

Earl Miller returned home after completing a year at the University of Alberta in Edmonton.
Mr. and Mrs. Dick Dow of Claresholm were visitors at the home of Mr. and Mrs. Allan McLean on Sunday.

Bill Bach played in the Lethbridge Musical Festival on Monday and received second with a score of 84. First score was 85. He also competed in the Calgary Musical Festival on Tuesday and received a second. Congratulations Bill.

A number of Carmanagay people attended the Recreation and P.T. Demonstration held in Barons on Thursday evening, April 23.

Mrs. Workentine and children are visitors in the home of Mr. and Mrs. L. Burke this week.

Missionary Meeting
Ladies of the missionary group met at the home of Mrs. Greta Soderquist on Wednesday, April 14. Two boxes of clothes were fixed and sent away and more work was done on the quilt blocks.
A very nice lunch was served.

C.W.A.S.
Ladies of the C.W.A.S. met at the home of Mrs. Rosella Hubka on Wednesday, April 21. Five members and one guest and Fath er Lebel were present. It was decided to have each member bring a homemade apron to answer the roll call for next month. Mrs. Helen Hubka won the raffle. The next meeting will be held at the home of Mrs. Marion West. A delicious lunch was served by the hostess.

Drama Club
The Dramatics class of the Carmanagay High School presented four presentations in the school auditorium on Friday, April 24. The auditorium was packed with people who saw a "Minstrel Show". Three one-act plays "All on a Summer Day", "The Spider" and "Luncheon for Six".
The drama class has 37 students in it and each one took part during the evening.
A dance followed in the community hall.

Greene - Charlesworth
The United Church at Carmanagay was the scene of an early spring wedding on April 6 when Rev. Peter Dawson read the marriage lines for Doreen Elinore Charlesworth, youngest daughter of Mrs. Bernice Charlesworth of Barrhill, and Clarence George Greene, younger son of Mrs. Mina Green of Carmanagay.

The bride chose a floor-length gown of white nylon net bouffant skirt over taffeta topped with a long-sleeved lace jacket. Her veil was of illusion net held in place by a coronet. She carried an arm bouquet of red roses.

Her bridesmaid was Miss Elinor McVinnie, who wore a gown of yellow taffeta and lace and matching headress.

Robert McVinnie of Barrhill attended the groom.

A reception was held for friends and relatives in the church hall following the ceremony. Rev. Dawson proposed the toast to the bride.

The young couple entertained at a dance in the evening. After

their honeymoon they will make their home on the groom's farm east of Carmanagay.

Barbara McLean will be in Carmanagay every Friday at Lenore Baldwin's place above the Baldwin Electric Shop, to do all types of hairdressing. Phone R111 for appointment. advt 37-2c

Stubble Burning Is Expensive

During the past two years above average crops have been produced as a result of large amounts of trash has accumulated on the fields. While this excess trash may be a problem in some cases, it can definitely be beneficial if handled properly. There are few farmers in Southern Alberta who are not fully aware of the benefit to be gained by keeping a good trash cover on the fields. They know from practical experience that trash cover cuts down wind velocity at the surface of the soil. It has been found that a trash 4 inches high will slow a sixty mile an hour wind to 15 miles an hour at two inches above the soil. A good trash cover cuts down on evaporation of soil moisture. While the supply of moisture has been above average for the last few years, the reverse may be true this year or next year. Any practice that conserves moisture or promotes a more effective utilization of moisture is certainly a step in the right direction. Moisture is still the most important factor in determining crop production over most of Western Canada.

When straw rots and decays it forms organic matter in the soil. Organic matter has the ability to hold a tremendous amount of water, over seven times as much as heavy clay, which is its closest rival.

The actual monetary value of straw can be calculated. Nitrogen costs about 11 1/2 cents a pound when purchased as ammonium sulphate 21-0-0, which is its cheapest form. An average crop will produce about 1500 pounds of straw to the acre. This straw will contain 9.15 pounds of nitrogen. The free nitrogen fixing bacteria in the soil can fix 15 pounds of nitrogen per acre if trash is available which makes a total of 24.15 pounds. At the above figure this would be worth \$2.83 an acre. However, 1500 pounds of straw all so contains 38 cents worth of phosphate and \$2.62 in potash. When straw is burned the nitrogen is lost, and the free nitrogen fixing bacteria in the soil produce less nitrogen if there is no trash in the soil.

ARROWWOOD

Mr. and Mrs. Ed Watwood of Carmangay were visiting friends in the district on Saturday.

Mr. and Mrs. Ray Helm and family spent last weekend visiting friends and relatives at Olds.

Congratulations to Mr. and Mrs. Harry McCullough on the birth of a son in Calgary, April 23.

A well drilling crew is in town and have drilled wells for S. Zahursky, one between the U.G.G. and Pioneer houses and are at present drilling one for R. Oberholtzer.

Congratulations to Amos Ingraham who celebrated his 85th birthday on April 25.

Miss Carol Beggs of the University of Alberta is spending a few days visiting with Miss Marjorie Steiner on her way to her home in Weybourne, Sask.

We were glad to hear that Bill Steiner won the first prize presented by the Imperial Oil Co. in Mechanics and Shop etc. for second year boys at the O.S.A. this term. Congratulations Bill!

Mrs. Norris of Herrobert, Sask., has returned to her home after spending two weeks with her daughter, Mrs. Len Salkeld.

Len Salkeld has returned home after spending a few weeks in the Colonel Belcher hospital.

The W.A. of the United church held their regular meeting at the home of Mrs. Leigh Williams April 22. Mrs. Leith resigned as president since she will soon be leaving the district, and Mrs. M. Wallace was elected in her place. After the meeting lunch was served by Mrs. Betts and Mrs. Hayes.

A pot luck dinner was held at Armada on Sunday with a number of the congregation of the Church of the Brethren attending. After this the play "He Lives" was presented to the congregation at Armada.

Mrs. Sharpe of Alix, has been visiting with her daughter and son in law, Mr. and Mrs. A. Gibson of Shoultice.

J. Familianu of Armstrong, B.

C. was a visitor at the home of Mr. and Mrs. F. Taylor.

Miss Helen Leadbeater of Calgary spent the weekend at the home of her parents, Mr. and Mrs. W. Leadbeater.

Mr. and Mrs. Joe Perveresoff and family have moved to Calgary former residents near Shoultice.

Mr. and Mrs. Bill Beckner and family of Milo were Sunday visitors at the home of Mr. and Mrs. Rud Beckner.

The Gospel Missionary Circle met at the home of Mrs. R. Culp on April. Election of officers were as follows: Secretary, Mrs. J. Culp; President, Mrs. G. Clarke; Vice-president, Mrs. C. Bannister. Following the meeting lunch was served by Mrs. H. Brown and Mrs. C. Bannister.

Miss Vivian Rowney of Carmangay is visiting at the home of Miss Carolyn Dumka for a few days.

The Quiz Show and Box Social sponsored by the A.A.A. and A.B.C. was quite well attended and approximately \$82 was realized, which will be used to help clear up the deficit on the skating rink.

Mrs. G. Schmidt of Shoultice, has her brother, P. Conrad of Nova Scotia visiting with her.

Miss Agnes Taylor of Calgary was a weekend visitor at the home of Mr. and Mrs. Fred Taylor.

Mrs. E. Peterson of Olds is visiting here at the home of her daughter and son-in-law, Mr. and Mrs. Ray Helm.

Mr. and Mrs. Jack Swanson and son and Mr. and Mrs. Gaylon Mishler were weekend visitors at the home of Mr. and Mrs. John Irwin.

Keith Cochrane left on Tuesday for Rochester to visit his son who is undergoing treatment in the clinic here.

The annual meeting of the shareholders of the UFA purchasing pool was held in the UFA hall April 25. A good membership attended and the new directors appointed are as follows: Albert Thorsen, Leigh Williams, Jack Roberts, Don McBride, M. Ward.

Milo News

Oh to live on the local power line and eat cold beans for dinner. That could have been the theme song east of town for a few days last week. This time however it wasn't so much the power line going out of working order but rather an intentional shut off. During part of the remodeling process going on in the town itself, it was necessary to shut off all the juice. Really this did not happen too often or for too long, that is unless you depended on that same power for heat or for cooking. Then the time seemed to be long indeed. This doesn't sound too inviting for those people who are thinking of getting power installed this coming season but when it comes right down to it it is so wonderful when it works that it makes up for all the times that it doesn't work.

Honor has been given to one of our local boys in as much as he has been chosen to help represent Canada at the biggest event the world will see this year or for many years to come. Ed Watt, will be one of the few Canadian Navy representatives at the Coronation of Queen Elizabeth II in London. He left Victoria B.C. April 7 aboard the H.M.C.S. Ontario. Get a good look for all of us, Bill.

Several women of the district gathered last week in the United Church to put the finishing touches to the remodeling job the men had done to the rooms at the back of the building. They painted, cleaned and hung fresh curtains and readied the living quarters for the minister and his wife who are to arrive this week.

There was a vaudeville show put on in the Milo hall last week that brought various opinions from the audience. As there can be only one opinion expressed in this column, here it is for what it is worth. The entire show was put on by a young man and his wife and if any more talent could be crammed in it is doubtful where it would be. The young lady was a fire eater and just to prove that it was real fire, Bob Scott was called onto the stage and lit a cigarette from the flame coming from her mouth. How would you like to dip gas torches into gas, light them and then extinguish them in your mouth? If you saw that in the midway of a fair you would pay almost the entire admission you paid for the whole show in Milo just to see that fire enter. The young man was a rope artist, a juggler, a magician, a musician, and besides that Emecead his own show. Some were heard to remark that they had seen better exhibits of roping than he showed and of course that could very well be true. But could this other rope thrower play a sax-

phone, clarinet, piano, guitar, banjo, Irish Fife, carpenter's saw, and ordinary door spring. And he got music out of all of them. Then he put the young lady into a mail sack that had been carefully examined by Bob Scott and Tooke Beckner. The bar was put across and padlocked by those same gentlemen. It took her something under two minutes to extract herself from the sack. All in all it was a show that was well worth the money that Slim McLory charged for it.

Glen Dishaw went to Edmonton to bring home Joyce who has just completed her first year as lab technician in the University of Alberta. On the way home she and her girl friend decided to stop in Calgary and look for jobs for the summer months. After looking

around for awhile Joyce landed a job in the Royal Bank of Canada. So she is all set for the summer if she doesn't decide that the lake looks too inviting about July and comes home to take advantage of it.

Leona Jones spent a week in Calgary visiting with her parents, Mr. and Mrs. Field.

It was stated awhile back that Mrs. Laura Sutherland was going to England to attend the Coronation and visit with friends and relatives. Now if nothing goes amiss it is planned that Betty Beckner will accompany her mother on this trip.

Not long ago Pete Will went in to B.C. on the train and brought back his mother. She is at the present time in a rest home in Calgary.

Mr. and Mrs. Henry Dankworth of Standard were weekend visitors at the home of their son in law and daughter, Mr. and Mrs. Donald Brinker.

Mrs. Mabel Anderson is keeping the youngest son of her daughter Marian for the time that the latter is confined to the hospital undergoing an operation.

There is a small settlement that has moved into the pasture south of Tom Beckner's buildings. To all appearances there are about nine bunkhouses and three men but it is presumed that more men are to come. Every time they get ready to move men and equipment, it rains and operations are held up some more. The purpose of this construction company, the Square M, is to build a structure over the ditch north of Tom Beckner's buildings and this time one that the spring floods will not tear down. They are also to build a drop on the ditch further down. They plan on spending most of the summer here.

A local mother had formed the doubtful habit of saying "Damn it" whenever something didn't go right. One day she spilled something and for some reason refrained from her usual vehement comment. Her two year old daughter looked at her aghast. "Well, damn it Mummy, damn it."

\$35,000,000 HIGHWAY PROGRAM MOST EXTENSIVE IN HISTORY

The Alberta Department of Highways this year has undertaken the most extensive highway construction program in the Province's history as the first stage of a four-year plan designed to provide an adequate system of all-weather main arterial highways.

It is expected that Alberta will have three paved highways running from east to west across the Province in the next three years and a completely paved highway from north to south.

This year's highway expenditures include \$3,000,000 for bridges, \$26,152,770 for highways and \$6,336,580 for construction on the Alberta section of the Trans-Canada Highway.

Work this year on the Trans-Canada Highway will be concentrated on black-topping the highway from Medicine Hat to Basano; little work will be done west of Calgary. The Province expects to complete its part of the work on the Trans-Canada Highway well before December, 1955.

OPEN NEXT WEEK Elder's Garage

All Gasoline Pumps in Vulcan will close at 6:15 p.m. on week-days, except Saturdays, and will remain closed on Wednesday afternoons, Sundays and holidays, with the exception of the service station named above, which will remain open until 8:00 p.m. every day for one week and will be open from 10 a.m. until 8 p.m. on Sunday and holidays, commencing

Open Sun., May 3rd

Attention Dog Owners

A DOG CLINIC will be held at the Skating Rink on Wednesday evening, May 6th, at 7 p.m.

when Dr. Cockx of Strathmore will be in attendance to administer booster shots for rabies, as well as the first inoculation for those who missed out four weeks previous. Owing to lack of time, there will not be any clinic held at Reid Hill this time, so district residents are asked to please bring their dogs to Vulcan.
